Cost of healthy food basket

Objectives

To estimate the cost of a Minimum Essential Standard of Living (MESL) Healthy Food Basket for 2018 and to present the cost as a proportion of take-home income for six household types in the Republic of Ireland.

Methodology

Focus groups conducted in 2014 for each household type determine the contents of the food basket. The food basket is part of a minimum essential standard of living and identifies a food basket that everyone should be able to afford. It represents a socially acceptable and nutritious food basket. The 2014 food basket costs were updated for 2018 by applying the Republic of Ireland Consumer Price Index (CPI).
