WHEN THE LIVING WAGE IS NOT ENOUGH

MESL WORKING PAPER

Living Wage & Family Households

- Living Wage is rate for Single Adult
- Households with children have additional & different needs
- 6 representative household compositions
- Focus on in-work social welfare supports

Family Household Compositions

Household

Child Age Groups

Two Parents, 1 Child

Infant

Two Parents, 2 Children

Pre-School, Primary

Two Parents, 3 Children

Infant, Pre-School, Primary

Two Parents, 4 Children

Two Primary, Two Secondary Level

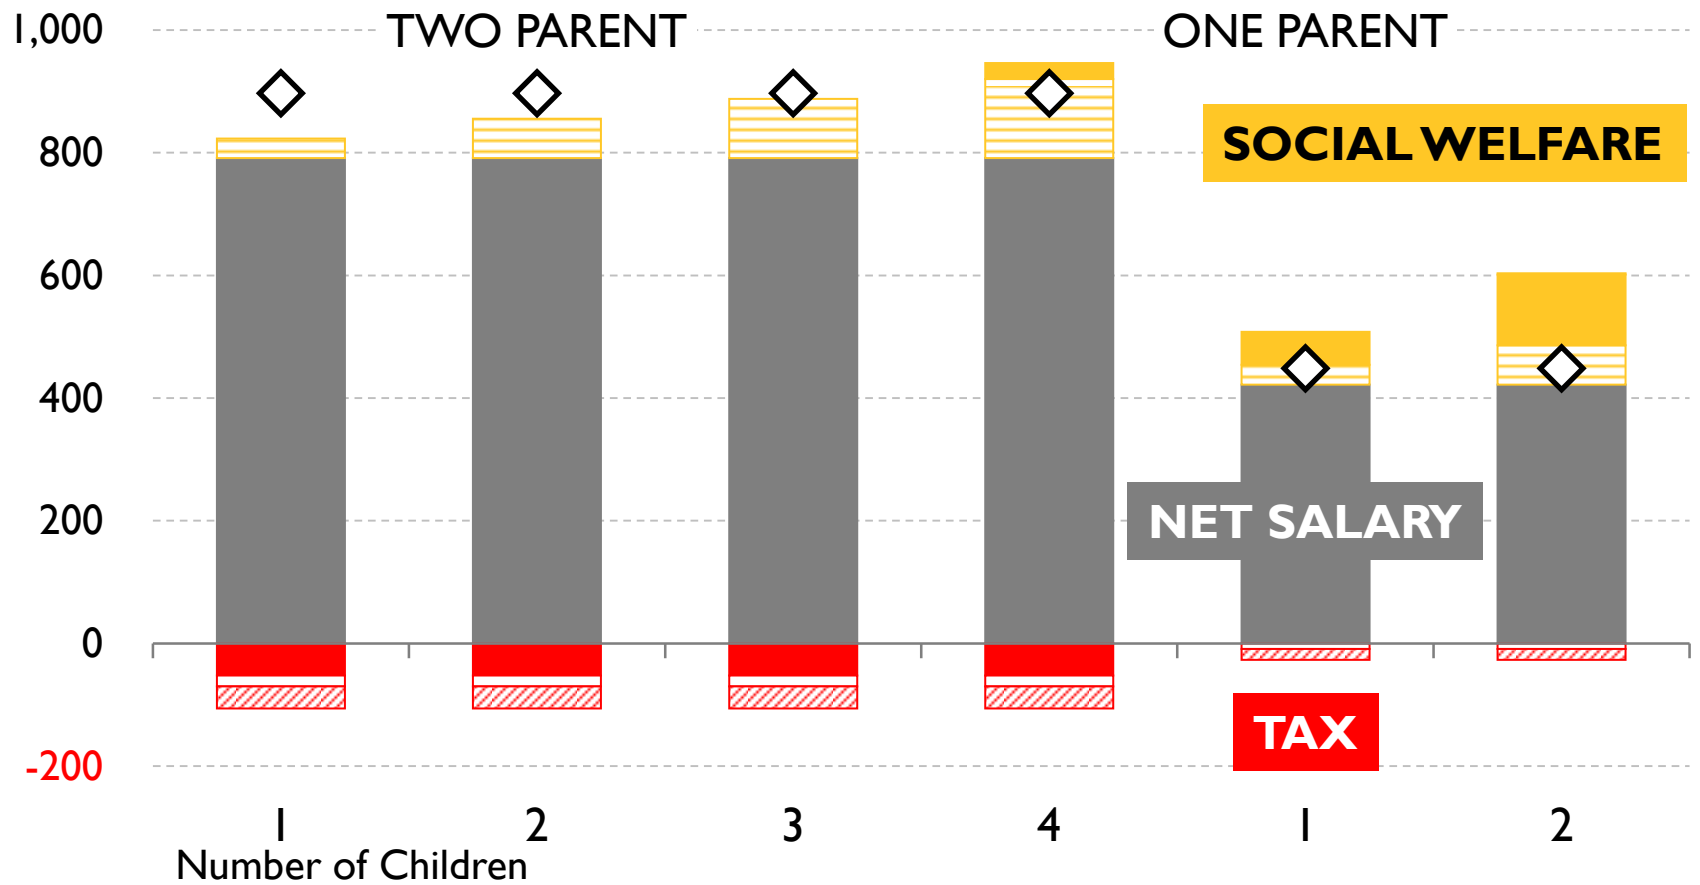

One Parent, 1 Child

Primary (Under 7)

One Parent, 2 Children

Pre-School, Primary

Living Wage Household Income

Living Wage Inadequacy

- Dublin based households – housing costs
- Households with more than one child in private childcare – childcare costs
- Larger households

The higher the ratio of people in the household to number of salaries

OP 2 3 People : 1 Salary

TP 4 6 People : 2 Salaries

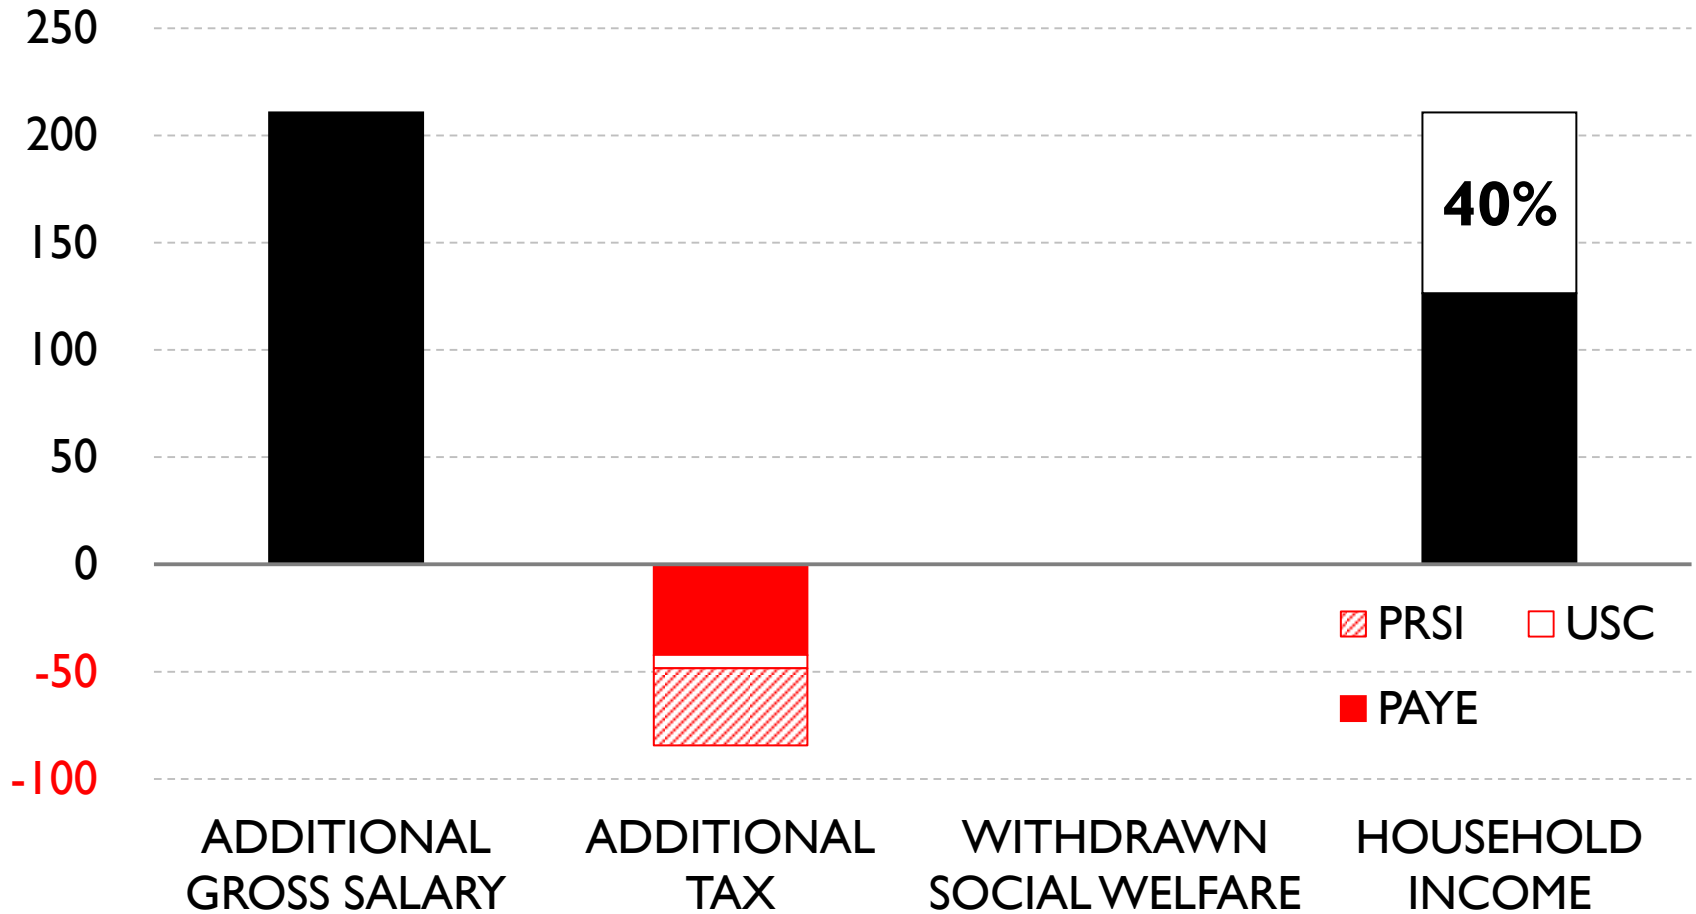

Analysis

- How household income changes as salary increases
- All adults in household employed full-time
- Examine change with incremental increases of €10 in gross salary, per adult, per week
- Focus on effect of change from NMW to LW

Marginal effective tax rates (METRs) measure how much of a given change in gross earnings, is taxed away through income tax, social security contributions and benefit withdrawals

OECD Definition

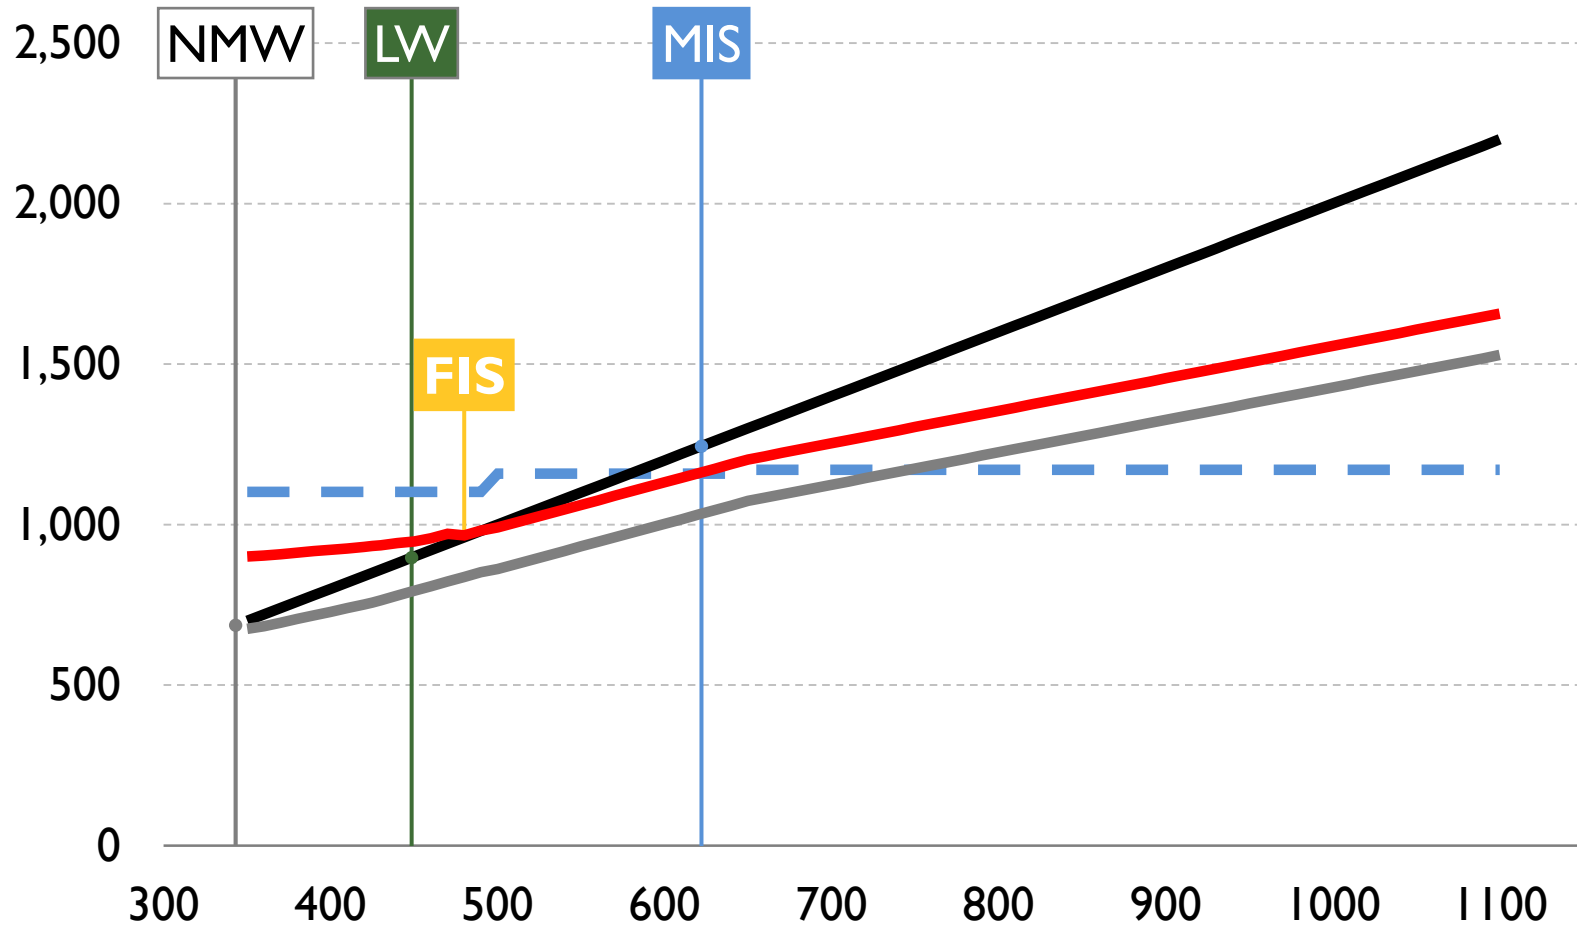

Two Parent, 1 or 2 Children

Two Parents, 4 Children

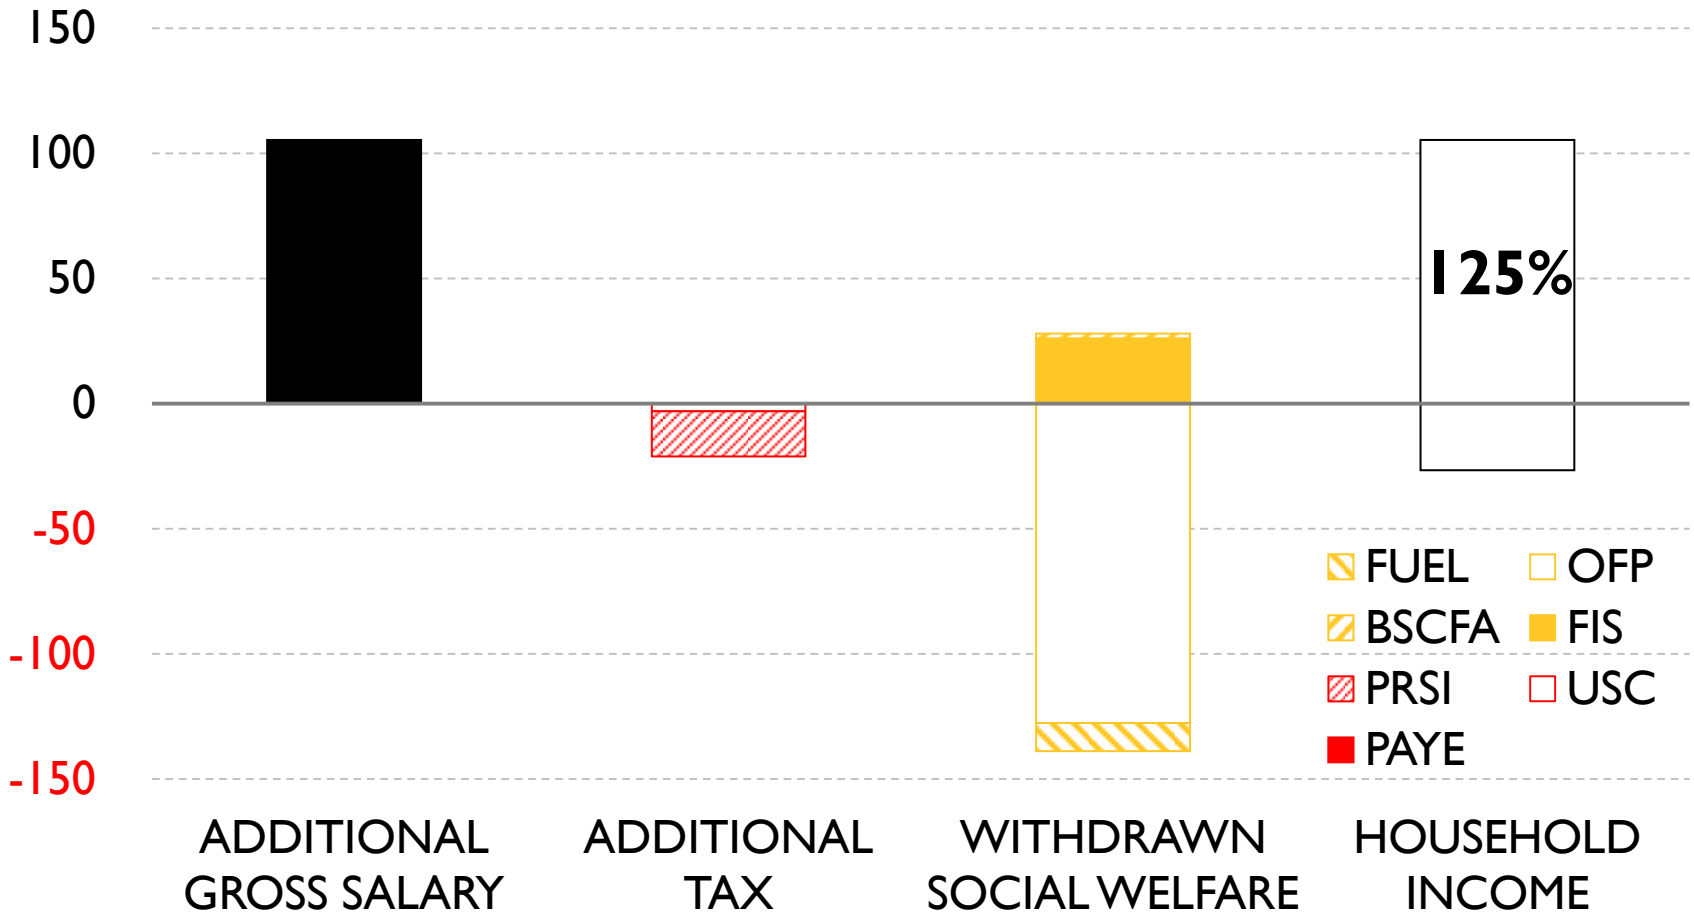

Two Parents, 4 Children

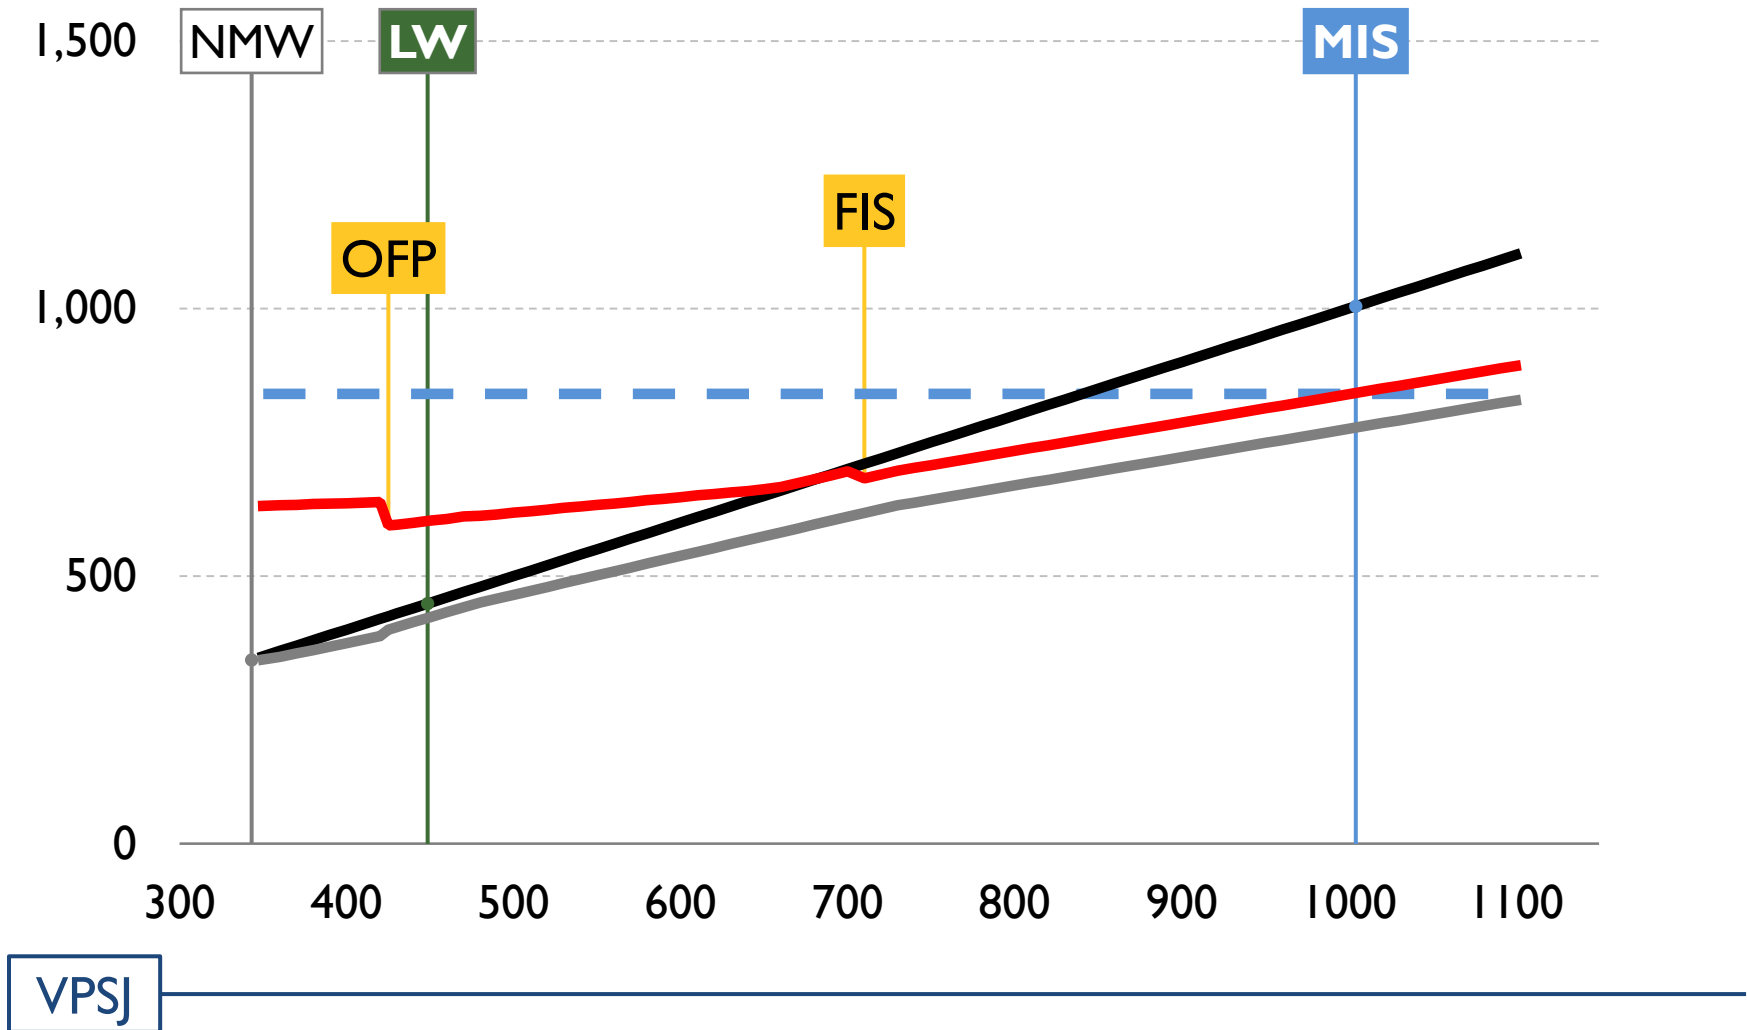

VPSJ

One Parent, 2 Children

One Parent, 2 Children

Conclusion

- Rates of pay below the Living Wage are low pay salaries
- Work harder for each €1 improvement in household income at low incomes, than at middle and higher incomes
- An METR of over 100% should not exist
